

# Baby's on the Way!

## Here's a time-saving tip.

Blue Cross Blue Shield of Arizona (BCBSAZ) knows how much there is to do to prepare for the birth of your baby. That's why they've compiled a list of hospitals that offer maternity packages. By planning now for the day your baby will arrive, you can focus on all those other things that have to happen between now and then.

The list on the back includes phone numbers so you can call the hospital you plan to use for your delivery and request information about their specific maternity package which may save you time and money. If you're unsure which hospital you will use, you can call those nearest you and request information to compare services and rates.

As always, we invite you to call us if you have questions or comments.
